At the University of Wisconsin Oshkosh, we invite students to imagine a better world, and then we harness their passion and build their skills so they can create it. From the day our students step on campus, they’re surrounded by a supportive, creative and encouraging community that helps them thrive.

Each UW Oshkosh campus offers unique strengths that create unmatched opportunities in the region, throughout the state and beyond.

Titans are creative, inclusive and daring. Our innovative curriculum and large array of academic programs expand students’ horizons. Because student success is at the heart of all that we do, there’s no limit to what Titans can achieve.

The UW Oshkosh admissions team reviews applications for all three of our outstanding campuses. Students on the Fox Cities and Fond du Lac campuses study the same associate degree curriculum as students on the Oshkosh campus, and students have a variety of options for continuing on including a seamless internal transition to the Oshkosh campus.
Students can start their application at apply.wisconsin.edu on Aug. 1, 2021. Review of applications begins right away! For fall 2022 applicants, there is no fee to apply to any of the three campuses of UW Oshkosh. ACT or SAT scores remain optional for fall 2022 and spring 2023 applicants.
