We know that college can truly be a transformative experience for students. Some students come to UW Oshkosh knowing exactly what they hope to be and do, while others plan to figure it out along the way. We know that the few short years they spend with us will change their lives for the better.

The profound impact we have on students is what drives professors and staff at UW Oshkosh to continually evaluate and evolve so we keep student success at the heart of all that we do. Changes this year at UW Oshkosh include a brand new student success team, new academic programs and major building renovations.

We look forward to continuing to serve you and your students. Each of the three UW Oshkosh campuses offers unique strengths that create unmatched opportunities in the region, throughout the state and beyond.

ON-SITE EVENTS AT YOUR HIGH SCHOOL

When possible, UW Oshkosh admissions counselors love coming to high schools to meet with students, do classroom presentations, be part of college nights or offer express admission events.

To see if an admissions counselor can come to your school, contact us at admissions@uwosh.edu or call (920) 424-3164. Each of our admissions counselors represents all three campuses of UW Oshkosh.

CELLAR ISN’T JUST ABOUT WHAT A STUDENT DOES, IT’S ABOUT WHO THEY BECOME.

COME FOR A CAMPUS VISIT

We offer a variety of visit opportunities throughout the year on all three campuses of UW Oshkosh. Students can register for an event, schedule a visit or view virtual options at uwosh.visit.

TITAN PREVIEW

Titan Preview events provide a taste of everything UW Oshkosh has to offer. You’ll hear from professors and current students, take a campus tour and attend some awesome information sessions about academic programs and life on the UW Oshkosh campus.

CAMPUS VISIT

UWO offers daily campus visits twice a day on most weekdays, which include a group presentation followed by a tour. Select Saturday visit opportunities are available during the academic year.

VIRTUAL OPTIONS

We offer a virtual campus tour as well as other self-paced virtual resources. Students can check out campus from the comfort of their home! Our virtual tour is at uwosh.virtual-tour.

STUDENT OUTREACH AND RETENTION

This year, UW Oshkosh has made significant investments in student outreach and retention. With the goal of providing proactive and ongoing support for students from the time they apply throughout their first year of attendance, students will be connected with a specific Student Success Navigator who will maintain contact with them and provide essential information to help ensure a smoother transition to college.

The new team includes a director and 13 Student Success Navigators. Additionally, a team of four staff members will be dedicated to success of our international students.

AN INVESTMENT IN HEALTH SCIENCES

UW Oshkosh is well known for our outstanding nursing program, with state-of-the-art simulation facilities, world-class professors and one of the highest consistent NCLEX pass rates in Wisconsin. As part of our dedication to developing talented healthcare professionals, we’ve recently expanded our healthcare options.

Our Medical Imaging major now includes two outstanding emphases in sonography and radiologic science. Students in these programs partner with hospitals and healthcare facilities throughout the region for hands-on high-impact learning practices.

We offer a special Titan Preview event for students interested in our healthcare programs. Our Health Science Titan Preview on Friday, Dec. 2, 2022 is for students who want to explore biology, chemistry, environmental health, exercise and sport science, medical imaging, medical laboratory science, nursing, pre-professional healthcare, rehabilitation science, and strength and conditioning.

EDUCATION BUILDING RENOVATION

For 150 years UW Oshkosh has been dedicated to teaching the next generation of educators. As our commitment to meeting the needs of students grows, a $27 million project to update the College of Education and Human Services spaces is well underway. A separate $8.3 million project to reconstruct the adjacent Algoma Boulevard also started this spring.

The highly anticipated project will transform the building into a modern center for teacher education, and will provide the necessary space and facilities to educate and develop teachers.

Construction will be completed in fall 2023.

NEW FOR NON-TRADITIONAL LEARNERS: UWO*

With a fall 2023 start, UW Oshkosh has launched a new suite of online accelerated programs for adult nontraditional students. Each of the nine programs offers lower tuition than other online programs, and courses are offered in fast-paced, seven-week sessions. To learn more about UWO+ visit uwosh.edu/online/plus.
