STEPPING UP TO THE CHALLENGE

No college or university is immune to the changing tides in higher education. At UWO, we have faced these challenges head on and reimagined what a UWO education should look and feel like.

We are turning obstacles into opportunity—and putting our students first in adapting to this changing landscape. We are enhancing our experiential learning opportunities, evolving in how we deliver an exceptional education, and ensuring a relevant mix of academic programs and in-demand degrees. As a result, UWO students graduate with the knowledge, experiences and confidence they need to reach their full potential.

At UWO, we create the engaging experiences that help our students emerge as innovators and difference makers in all that follows. And there is no better university location in all of Wisconsin for the blend of opportunity, entertainment, outdoor recreation, affordability and the natural beauty that Oshkosh provides.

#1

BEST PLACE FOR RECENT COLLEGE GRADUATES

Oshkosh is the **#1 best place in the nation** for recent college graduates, according to SmartAsset, thanks in part to UWO's great student outcomes and in-demand degrees. UWO grads also enjoy a good cost of living and proximity to many large employers with competitive wages—and a beautiful city full of great food, entertainment, charm and opportunity.

There's a reason 85% of UWO graduates stay in Wisconsin, with most right here in Oshkosh. The thriving Fox Valley region is a major hub of industry, including healthcare, financial services, education, manufacturing and technology.

WOMEN'S WRESTLING

The highly anticipated **debut of women's wrestling in 2024** gives UWO 20 intercollegiate sports. Each sport benefits from the pride and passion of our students and communities. It's a tradition of excellence and culture of opportunity where our athletes are one step ahead of the competition.

NATIONAL CHAMPS

The Titans boast **50 national championship trophies**, including a third consecutive championship title in women's gymnastics this past spring. This last year, UWO celebrated a Softball World Series appearance, Women's Basketball Sweet Sixteen appearance, and Men's Track and Field national runner-up finish.

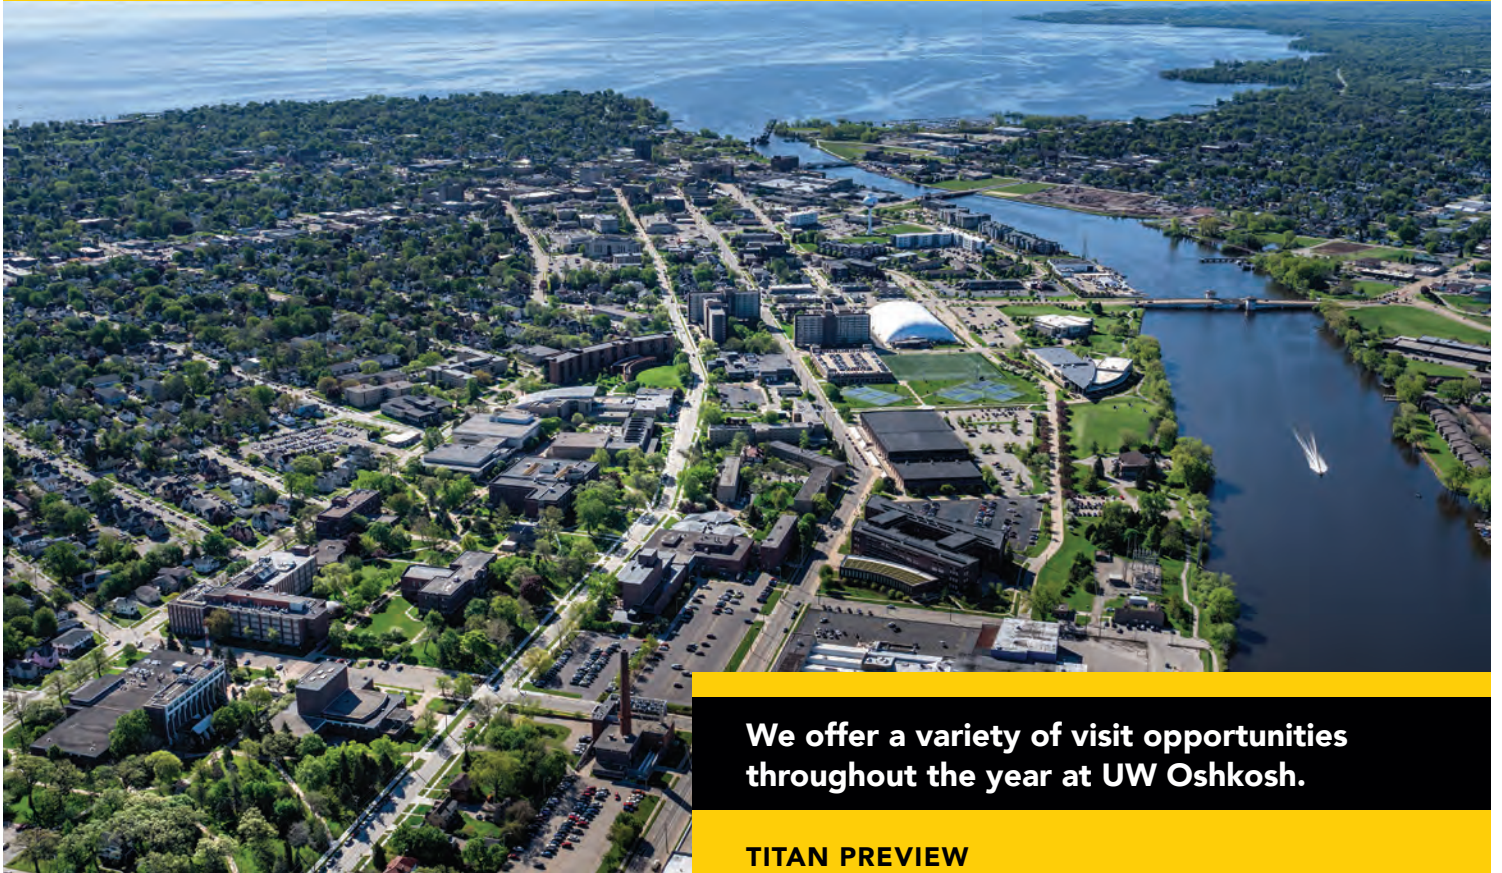

EXPERIENTIAL LEARNING

Students across a vast range of UWO academic programs participate in **experiential learning opportunities that enrich their university experience and skill set**. Students are empowered to apply their knowledge, ingenuity and passion through research, internships, teaching, service learning, clinicals, service agencies and similar experiences that align with their career.

These experiential learning opportunities are sometimes real-time interviews—many of our students have full-time job offers before they graduate. This enhanced way of learning means students don't just keep pace—they stay one step ahead.

VISIT OUR CAMPUS

Learn more and schedule your visit at uwo.sh/visit.

We offer a variety of visit opportunities throughout the year at UW Oshkosh.

TITAN PREVIEW

Titan Preview events offer a taste of everything UWO has to offer. You'll hear from professors and current students, take a campus tour and attend awesome information sessions about academic programs and life on the UW Oshkosh campus.

CAMPUS VISIT

We offer twice-daily campus visits Monday through Friday that include a group presentation and tour. Select Saturday visit opportunities are available during the academic year.

VIRTUAL OPTIONS

Or explore UWO on your own with our virtual tour. Each "stop" on the tour provides supplemental videos and photos to give a glimpse of our campus community, learning spaces and residence halls.
